252.243-7001	Pricing Of Contract Modifications	DEC 1991

(End of Summary of Changes)

The following items are applicable to this modification:**MODIFICATION SUMMARY**

The closing date and time for proposals has been changed from 18 Aug 05, Noon Mountain Standard Time (MST) to 22 Aug 05, Noon MST.

The following answers are provided to questions that were received prior to the deadline of 11 Aug 05, Noon Mountain Standard Time.

QUESTION 1: In attachment 1 of schedule A, the cleaning frequency is shown. Is there a collection frequency and / or days? We understand the food dumpsters are everyday pickups and are cleaned weekly. The "dry" dumpsters are of question.

ANSWER 1: Please see the following paragraph from the Statement of Work. 1.1. REFUSE COLLECTION SERVICES. The contractor shall provide permanent five cubic yard dumpsters placed at locations as indicated on Attachment Table-1 (Schedule A). The contractor shall collect the refuse as needed and take it to the YPG Landfill. The contractor must notify the COR of any projected delay and provide an estimated time for refuse collection. All refuse collection shall be in accordance with normal commercial practices. The attached collection schedule is a working document; it is the responsibility of the contractor to adjust the collection schedule to assure that the dumpsters do not over flow, there is no accumulation of insects and/or rodents and unsavory smells. All dumpsters shall be cleaned quarterly using the car wash located on the Main Admin Area building facility number 218.

QUESTION 2: In CLIN 0006 it states dumping of personal roll off boxes, how many 12 cubic yard roll off boxes does the government estimate having since there is no prior history of 12 cubic yard roll off boxes?

ANSWER 2: In the Solicitation, please see Estimated Workload Data.

QUESTION 3: How many 12 cubic yard roll off boxes does the government expect for special events?

ANSWER 3: Estimate is 12 annually.

QUESTION 4: In Line Item #0008, is the contractor supposed to put NA for the line item?

ANSWER 4: Yes.

QUESTION 5: The solicitation calls for over 140 - 5 yd containers. Currently our contract uses different sizes of containers. 5 yd containers have to be custom ordered whereas 6 yd containers are standard sized containers. The main reasons for this are: the length of time it takes to get that many 5 yds made and delivered as well as the difference in cost. We would prefer to use 6 yds but still charge the 5 yd contracted rate.

ANSWER 5: This is acceptable.

QUESTION 6: According to CLIN 0009, the phase in period is scheduled to be September 15-30, 2005. It takes between 2-3 months for new containers to be delivered once they are ordered. The order will not be placed until the bid is awarded so this time frame for phase in will need to be extended.

ANSWER 6: The successful bidder would be allowed to use whatever size containers they have until the new containers are received. The phase in period is to allow the successful offeror to become acquainted with YPG and placement of containers.
